VISION

The vision for Punjab's road sector aims at upgrading, augmenting and maintaining a modern road network in the province under most cost-effective, optimal and efficient development and management regimes.

POLICY

The provincial government envisions construction of a high quality infrastructure as planning, constructing and maintaining road network in public sector under need driven and cost effective regimes aiming at providing best possible means of communication to the general public. Public sector construction projects are well recognized to generate maximum employment opportunities and contribute toward enhancing economic growth. Its multiple effects on the economy are demonstrated through the wide ranging impacts of the construction activities in (a): generating industrial production, (b): developing small and medium enterprises, (c) creating self employment market place, and (d): promoting business commerce and trade activities.

The Punjab Government is also planning for the construction of circumferential roads in the big cities to reduce traffic stress on metropolitan roads. The Lahore Ring Road Project is accordingly being implemented comprising northern and southern loops. The LRR is designed as a three-lane dual carriageway for length of 40 km and comprises 17 construction packages. The second phase i.e southern loop is a new corridor (30 km) linking Ferozpur Road Interchange to Shahpur Interchange.

OBJECTIVES

Sectoral priorities identified for Punjab's road sector are as follows:-

- Preparing an Assets Management Plan for the provincial road sector and undertaking planned rehabilitation of roads that have outlived their design life.
- Construction of missing road links.
- Developing province-wide secondary arteries (covering north-south and east-west corridors) linking national motorways / trade corridors to foster economic

opportunities via meeting expanding domestic and international travel and trade demands.

- Improving average road densities to achieve optimal traffic density levels in consonance with increasing transportation requirements and targeted economic growth in the province.
- Implementing initiatives to improve road safety and axle-load conditions to achieve substantial reduction in road accidents and avert premature road distress.

STRATEGIC INTERVENTIONS

- Undertaking widening / improvement of existing roads to 20 ft / 24 ft width for roads with traffic densities exceeding 800 vehicles per day (VPD), targeting to achieve full coverage by year 2015-16.
- Dualization of main arteries with 8,000 vehicles per day (VPD)
- Improvement of existing roads geometry.
- Undertaking improvements in road design and specifications.
- Development, rehabilitation and up-gradation of urban road network in mega cities.
- Undertaking new bypasses, underpasses and overhead bridges / Flyovers to streamline smooth flow of traffic on congested routes.
- Undertaking the circumferential/ring roads in the big cities to reduce traffic stress on metropolitan roads.
- Encouraging the execution of mega projects on PPP/BOT mode.
- Rehabilitation of Farm to Market road network.
