

GOVERNMENT OF PAKISTAN
ECONOMIC AFFAIRS DIVISION

No.2(1)EA/CHINA-II/2025

Islamabad, the 17th June , 2025

OFFICE MEMORANDUM

SUBJECT: MULTILATERAL TRAINING PROGRAMS IN AGRICULTURE AREA UNDER CHINA AID IN AUGUST, 2025

The undersigned is directed to state that the Government of the People's Republic of China has offered Multilateral Seminars, in agriculture area for the month of August, 2025 for officers of the Government of Pakistan (**List and program details are attached**). The Chinese side has further informed that the candidates **cannot be withdrawn once nominated** and the final application result will be subject to the MOFCOM. The Government of Pakistan will not be liable to bear any cost. The requisite general requirements are as under:

Eligibility Criteria

- Officers (**BS-17 & above**) of Ministries / Divisions and Provincial Governments most relevant to the training programmes.
- Proficiency in English.
- **Maximum age limit is 50 years for BS 20 & above, and 45 years for BS 17-19.**
- **Contract Employees are not eligible**

Documents Required

The following documents are required to be sent along with the nomination:

- Application Form (**02 sets**)
- Information Form duly filled in by the nominee (**02 sets**)
- Copy of Passport at least six months of remaining validity and blank visa pages (**02 sets**)
- Medical Certificate (Foreigner Physical Examination Form) (**02 sets**)
- No criminal record certificate or Police Clearance Certificate attested by Ministry of Foreign Affairs of Pakistan, if not visited China within 5 years (**02 sets**)
- FTC Proforma
- Copy of CNIC
- Surety Bond on stamp paper
- Undertaking on stamp paper

3. The relevant Ministries / Divisions and Provincial P & D Departments must note the following points while nominating the candidates:

1. Most relevant candidates should be nominated for the Seminars.
2. Nomination of the candidates should reach MoEA before the deadline. Late the arrival of nomination, after the MoEAs' deadline, will not be entertained.
3. Nomination papers, complete in all respect, may be forwarded to EAD through proper channel i.e. through their respective Administrative Ministry / Division/ P&D Department.
4. All candidates must follow code of conduct ([Annex-I](#))
5. For further details / information / forms / FTC proforma EAD's website: www.ead.gov.pk may be visited.

4. In order to avail the trainings programs, it may be ensured that suitable nominations, along with their complete documents be provided to this Ministry before the closing date.

Project List of 2025 Multilateral Training Programs in Agriculture Area under China Aid for the month of August, 2025

No.	EAD's File Reference Number	English Name of Training Courses	Course Duration (Days)	Number of Participants	Place	Starting date	Finishing date	EAD's Deadline
1	3(19)EA/China-II/2025	Seminar on Fisheries Activity Supervision and Law Enforcement for Maritime Silk Road Countries	21	1	China	08-Aug-25	28-Aug-25	10-Jul-25
2	3(20)EA/China-II/2025	Seminar on Fisheries Development and Cooperation for Indian Ocean Rim Countries	21	5	China	08-Aug-25	28-Aug-25	10-Jul-25
3	3(21)EA/China-II/2025	Seminar on Management of Forests Functioned as Water Conservation, Economic Growth, Grain Production and Carbon Resources for Officials from Developing Countries	14	2	China	12-Aug-25	25-Aug-25	10-Jul-25
4	3(22)EA/China-II/2025	Seminar on Urban and Rural Development and Rural Revitalization for Developing Countries	14	5	China	21-Aug-25	3-Sep-25	10-Jul-25

Seminar on Fisheries Activity Supervision and Law Enforcement for Maritime Silk Road Countries

Program name	Seminar on Fisheries Activity Supervision and Law Enforcement for Maritime Silk Road Countries		
Organized by	Freshwater Fisheries Research Center of Chinese Academy of Fishery Sciences		
Time	2025-08-08 -- 2025-08-28	Language used	English
Countries invited	Maritime Silk Road Countries		
Planned number of participants	25		
Requirements for the Participants	Age	Departmental-level officials, no higher than 50 years; divisional-level officials, no higher than 45 years	
	Health condition	In good health, with a health certificate or medical examination form issued by a local public hospital, without diseases prohibited from entry by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular and cerebrovascular diseases and diabetes; without mental illnesses or infectious diseases that may pose serious threats to public health; not during the postoperative recovery period after a major operation or during the outbreak period of acute diseases; without severe physical disability; non-pregnant.	
	Language competence	Capable of listening, speaking, reading and writing in English during the training	
	others	Family members or friends shall not follow	
Venue	Wuxi City, Jiangsu Province	Weather conditions	28°C~35°C
Cities to be visited	Nantong City, Jiangsu Province Dalian City, Liaoning Province Dandong City, Liaoning Province	Weather conditions	Nantong City:25°C~32°C Dalian City:22°C~30°C Dandong City:22°C~30°C
Remarks	1. Please prepare the materials related to seminar topics in advance; 2. Please prepare formal dress, national costume or work uniform to the official activities; 3. Please prepare a small amount of commonly used medicines; 4. The organizer does not provide computers, please bring your own if necessary; 5. In principle, participants are not allowed to change their round-trip ticket to and from China. If you really need to do so, please contact the Economic and Commercial Office of the Embassy of the People's Republic of China in your country and follow the procedure to change your ticket; 6. If you cannot depart on time due to special circumstances, or if your flight is delayed during transfer, please contact the Economic and Commercial Office of the Embassy of the People's Republic of China in your country or the contact person of the organizer in time to inform them of the latest flights so that they can arrange for pick-up; 7. Please confirm whether you need to re-check your baggage when transferring to another flight; 8. Upon arrival and after baggage claiming, please wait patiently at the international or domestic arrival exit, the staff will hold a pick-up tag with the name of the organizer and the participants, if the waiting time is more than 15 minutes, please contact the contact person of the organizer; 9. It is recommended to download and register the WECHAT software in advance.

About the Organizer	Freshwater Fisheries Research Center of Chinese Academy of Fishery Sciences (FFRC) was established in 1978. It is a comprehensive institution for fisheries research and development, combining together scientific research, teaching and training, technology transfer and information exchanges within the National Agricultural Sci-tech Renovation System. It has 8 research divisions, 5 technical practice bases and 13 technological innovative platforms such as Fisheries Ecosystem Monitoring Center for the Lower Yangtze River, MARA, Sino-US Cooperative Laboratory for Gemplasm Conservation and Utilization of Freshwater Molusks. For a long time, FFRC has maintained close cooperation and exchanges with Hohai University, Jiangsu Hydraulic Research Institute and other units. FFRC has 195 staff members, of which there are 80 professors, 14 PhD supervisors and 44 MSc supervisors in aquaculture sciences. Since its establishment, FFRC has been awarded with 11 national level prizes, over 80 provincial or ministerial level prizes and has acquired over 320 authorized patents of invention. In 2014, FFRC was authorized as FAO Reference Centre for aquaculture and inland fishery research and training. In 2018, the Agriculture Minister Han Changfu and Director-General of FAO jointly issued the “China-FAO Special Contribution Agency for South-South Cooperation Reward” to FFRC. In 2021, FFRC was authorized as “China-Africa Joint Center for Modern Agricultural Technology Exchange, Demonstration and Training”. As an important component of FFRC, the Asian-Pacific Regional Research and Training Centre for Integrated Fish Farming (IFFC) has been consecutively conducting over 250 international training courses and seminars in fishery and aquaculture since 1981. These training programs covered a wide topics, such as integrated fish farming, pond fish farming, land-based aquaculture, industrialized aquaculture, technical extension, fish seed production, fish feed development, fishery environment and climate change, plan and policy for fishery development, processing technology of aquatic products, quality and safety of aquatic products, value-added fishery products development, healthy management and quarantine of aquatic animals, etc.. Up to now, over 8980 senior fisheries technical and managerial personnel from over 134 countries and regions have been trained. In 2011, it was certified with the ISO9001 Quality Management System Certificate in education and training. Meanwhile, the MSc and PhD programs were initiated in 2011 and more than 240 master's and doctoral students from 56 countries and regions have been trained here.	
Training content	I. Introduction of Main Courses Module 1: Overview of China’s status and cultural activities Diplomatic Thoughts of President Xi Jinping: mainly introduce the international cooperation of the Belt and Road Initiative, the profound connotation of a community with a shared future for mankind, the reform of the global governance system and the vision of world peace and global development. China's national conditions and reform and opening up: China's economic development, reform and opening up policies, etc. Introduction of Chinese Culture: introduce Chinese traditional culture, Chinese cuisine and customs, and organize Chinese culture experience activities, such as calligraphy, Chinese tea, etc; Module 2: Fishery Safety Production and Law Enforcement Fishery Safety Production Management Standards: Introduce relevant laws, regulations, and	

	management methods, the fishery vessel management system, and emergency response mechanisms for fishery-related water incidents. Aquaculture Safety Management: Present safety production management standards and principles for the pre-production, production, and post-production stages of aquaculture. Risk Prevention and Control in Fishery Production: Explain the role of fishery cooperatives, fishery insurance systems, and other measures in ensuring safety production. Fishery Administration and Law Enforcement: Introduce the development of China's fishery administration and law enforcement system, sharing insights on institutional construction experiences. Module 3: Fishery resources conservation and supervision Ecological Assessment and Conservation of Fishery Resources: Introduce the distribution and current conservation status of China's aquatic resources, the protection of endangered aquatic species and biodiversity research, and explain the implementation and outcomes of the Yangtze River 10-year fishing ban policy. Construction of Fishery Resource Supervision Systems: Present China's key river basin aquatic resource conservation and supervision mechanisms, including the fishing management responsibility system and aquatic resource management frameworks implemented in these basins. Watershed Management and Law Enforcement for Fishery Resources: Explain fishery stock enhancement techniques and China's fishery resource conservation and management systems. II. Introduction to Visit (Cities to visit may be adjusted according to the actual situation) (1) It is proposed to organize participants to conduct on-site visits of China's fisheries activity supervision and law enforcement departments, and to exchange and discuss the capacity-building of officers engaged in fishery supervision and law enforcement; (2) It is proposed to invite officers engaged in fishery supervision and law enforcement in China to interact with the participants so that the latter can more objectively understand the current situation of the development of fishery supervision and law enforcement in China and explore the future direction of fisheries cooperation between China and the Maritime Silkroad countries; III. Introduction to Professors (1) BING Xuwen: senior researcher, deputy director of Freshwater Fisheries Research Center, his main research directions are aquatic health breeding technology and special aquatic product breeding technology; (2) ZHU Jian: senior researcher, director of the Key Laboratory of Rice-Fishery Integrated Planting and Breeding Ecology of the MARA, Chief Scientist of the National Major-cultured Freshwater Fish Industry System, Director of the Engineering Technology Research Center for Rice-Fishery Integrated Planting and Breeding of CAFS. His main research interests are ecological health breeding and integrated fishery and agriculture; (3) XU Dongpo: senior researcher, Director of the Fishery Resources and Environmental Science Observation and Experimental Station in the lower reaches of the Yangtze River of MARA, and member of the Discipline Committee of Fishery Resources Conservation and Utilization of CAFS. His main research direction is the conservation and utilization of fishery resources; (4) LIU Kai: senior researcher, chief of the "Yangtze River Important Germplasm Resources Assessment and Protection Innovation Team" of CAFS, deputy director of the Yangtze River Basin Aquatic Biological Resources Monitoring Center of the MARA. His main research interests include fishery resources investigation and assessment, biodiversity conservation, key habitat protection and ecological restoration, etc. (5) ZHOU Yanfeng: senior researcher, his research interests include the protection and utilization of fishery resources, including the investigation and evaluation of aquatic biological resources, biodiversity conservation, ecological restoration technology and effect evaluation; IV. Others In order to facilitate communication with Chinese experts, please prepare the materials related to training topics, such as: ①the current situation and challenges of the regulation and law enforcement of fisheries activities; ②the basis of cooperation with China and the vision of the future direction of cooperation

Seminar on Fisheries Development and Cooperation for Indian Ocean Rim Countries

Program name	Seminar on Fisheries Development and Cooperation for Indian Ocean Rim Countries		
Organized by	Freshwater Fisheries Research Center of Chinese Academy of Fishery Sciences		
Time	2025-08-08 -- 2025-08-28	Language used	English
Countries invited	Indian Ocean Rim Countries		
Planned number of participants	25		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; Under 50 for officials at director general's level.	
	Health condition	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant.	
	Language competence	Capable of listening, speaking, reading and writing in English during the training	
	others	Family members or friends shall not follow	
Venue	Wuxi City, Jiangsu Province	Weather conditions	30°C~35°C

In 2011, it was certified with the ISO9001 Quality Management System Certificate in education and training. Meanwhile, the MSc and PhD programs were initiated in 2011 and more than 240 master's and doctoral students from 56 countries and regions have been trained here.	
Training content	I. Main Content Introduction (The contents might be adjusted according to the situation) Module 1: Opening & Closing Ceremony and Culture Exchange Xi Jinping Thought on Diplomacy: Mainly introduces the «Belt and Road» international cooperation, the profound connotations of a community with a shared future for mankind, the reform of the global governance system, and the vision for world peace and development ; General Information of China and Reform and Opening-up: Introduce the main course of China's economic development, reform and opening-up policies, etc. ; Chinese Culture Topics: Introduce traditional Chinese culture, dietary customs, and organizes participants to engage in Chinese cultural experience activities, such as calligraphy and tea art.	

	Module 2: Fishery Development and Management Current Status and Challenges of Global Fisheries Resources: mainly introduces the overview of global fisheries resources, including issues on overfishing, the impact of climate change on fisheries, and the role of international fisheries management organizations; Fishery Development Strategy and Policies in China: Share the strategy and related policies of China's fishery industry, which focuses on high-quality development, emphasizes green ecology, technological innovation, and sustainable development; Concepts and Practices of Sustainable Development in Modern Fisheries: mainly focuses on the Ecosystem Approach to Fisheries Management (EAFM), the Code of Conduct for Responsible Fisheries (CCRF), and science-based fisheries management; Effective development and management of fishery resources: covering the basic concepts of fishery resources, explaining the assessment methods, development strategies, and management measures, focusing on the challenges and countermeasures of fishery resource development and management, and promoting the sustainable utilization and protection of fishery resources. Module 3: Development of Fishery Industry Healthy aquaculture and biosafety management: sharing scientific aquaculture techniques and methods, preventing invasive species, protecting biodiversity, pathogenic microorganisms and water environment management, etc; Development of Fishery Seed Industry: Introduce the development, optimization, and innovation models of fishery seed industry, share the successful practices of cultivating aquatic species with excellent traits that adapt to different environments in China, and improve aquaculture efficiency and yield; Fish large-scale aquaculture: This course not only teaches basic concepts and outlines the advantages and disadvantages of the model, but also combines the successful practices of Chagan Lake and Qiandao Lake to lay the foundation for students to promote this model in China; Development of Fishery Feed Industry: Summarize the development process and current situation of fishery feed industry, look forward to future development trends and prospects, and emphasize the importance of continuous innovation and cooperation; Aquatic Product Processing and Quality Safety: discusses technologies for processing aquatic products, quality and safety management systems, and traceability systems for aquatic products. Module 4: International Cooperation in Fishery Fisheries Industry Value Chain and Marketing: explores value chain analysis in fisheries, marketing strategies for aquatic products, and brand development; International Fisheries Cooperation and Policy: Exploring Cooperation Models between China and Indian Ocean Rim Countries in Aquaculture Technology and Trade; China Indian Ocean Rim International Fisheries Cooperation and Exchange: Exploring multilateral and bilateral international fisheries cooperation mechanisms, deepening regional fisheries management organizations and international cooperation. II.Introduction to Visit (Cities to visit may be adjusted according to the actual situation) (1) It is planned to arrange for participants to visit fishery management departments to conduct exchanges on Fisheries Development and Cooperation in fishery; (2) It is proposed to invite Chinese fishery and fishery administration personnel to exchange with participants, so that the participants can have a more objective understanding of the current situation of China's fishery development, and explore the basis and future directions of fishery cooperation between China and Indian Ocean Rim Countries. III.Introduction to Professors (1) Bing Xuwen; Professor, master supervisor of Nanjing Agricultural University and Shanghai Ocean University, currently deputy director of FFRC; main research fields:healthy aquaculture technology and special aquatic product breeding technology; (2) Zhu Jian: Professor, Director of the Key Laboratory of Integrated Rice-fish Farming Ecology of the Ministry of Agriculture and Rural Affairs, Chief Scientist of China Agriculture Research System (Conventional Fish), and Director of the Integrated Rice-fish Farming Engineering Research Center of the Chinese Academy of Fishery Sciences. Main research fields: ecological aquaculture and integrated rice-fish farming; (3) Ren Mingchun: Professor, doctoral supervisor of Nanjing Agricultural University, master supervisor of Shanghai Ocean University, currently deputy director of FFRC with main
--	---

	research filed on aquatic animal nutrition and green feed; (4) Xu Dongpo: Professor, doctoral supervisor of Nanjing Agricultural University. Main research direction: protection and utilization of large water surface resources; (5) Dong Zaijie: Ph.D., Professor, PhD advisor of Nanjing Agricultural University and Shanghai Ocean University; Main research fields: genetic basis of aquatic animals, breeding technology, propagation technology and breeding demonstration and promotion, etc. IV.Others In order to facilitate communication with Chinese experts, please prepare the materials related to seminar topics, such as: ①The development status and challenges of aquaculture management in your country; ②The future cooperation basis and direction with China in the field of fishery, aquaculture, science and education, etc.

Seminar on Management of Forests Functioned as Water Conservation, Economic Growth, Grain Production, and Carbon Resources for Officials from Developing Countries

Program name	Seminar on Management of Forests Functioned as Water Conservation, Economic Growth, Grain Production, and Carbon Resources for Officials from Developing Countries		
Organized by	China National Bamboo Research Center		
Time	2025-08-12 -- 2025-08-25	Language used	English
Countries invited	Developing countries		
Planned number of participants	25		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; Under 50 for officials at director general's level.	
	Health condition	In good health with health certificate issued by the local public hospitals; without diseases with which entry to China is disallowed by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular/cerebrovascular diseases and diabetes; without metal diseases or epidemic diseases that are likely to cause serious threat to public health; not in the process of recovering after a major operation or in the process of acute diseases; not seriously disabled or pregnant.	
	Language competence	Capable of listening, speaking, reading and writing in English during the training	
	others	Family members or friends shall not follow	
Venue	Hangzhou City, Zhejiang Province	Weather conditions	25°C~35°C
Cities to be visited	Lishui City Nanping City	Weather conditions	Lishui City:25°C~35°C Nanping City:25°C~35°C
Remarks	1. Please prepare the discussion materials related to the theme of the program; 2. Please wear formal or traditional ethnic clothing or working uniform to formal activities; 3. Please carry a small amount of common medications; 4. The Chinese side will not provide computers, please bring your own if necessary; 5. It is generally prohibited to alter international flight tickets personally. If necessary, please consult the Economic and Commercial Office of the Chinese embassy in your country to handle the process of flight ticket change; 6. If unexpected circumstances prevent your timely departure, or if your connecting flight is delayed, please contact the Economic and Commercial Office or the contact person of the organizer in a timely manner and inform them of the latest flight information for pick - up arrangements; 7. When transferring flights, please confirm whether you need to recheck your luggage; 8. After collecting your luggage upon landing, please wait patiently at the international arrival exit or domestic arrival exit. Our staff will pick you up with a sign bearing the name of the organizer. If the wait exceeds 15 minutes, you can contact with the contact person of the organizer by phone; 9. It is recommended to download and register WECHAT in advance.		

	10.The city visit schedule is subject to change based on actual conditions.

	Address	No. 310, Wenyi Road, Hangzhou City, Zhejiang Province, P. R. China
About the Organizer	China National Bamboo Research Center (CBRC) was established in 1984. In 2011, the International Forestry Science and Technology Training Center of the National Forestry and Grassland Administration was established under the CBRC. The center has three main missions: (1) Undertaking, organizing, and coordinating major bamboo research and development projects domestically and internationally; (2) Promoting international economic and technical exchanges, cooperation, and personnel training in the bamboo industry; (3) Advancing bamboo industrialization. As one of China's first institutions to undertake foreign aid training tasks, CBRC has conducted 183 training projects since 1993, including 8 ministerial-level seminars, training 6,480 professionals from 115 countries across five continents. CBRC has also implemented five bamboo development aid projects in Rwanda and collaborated with over 30 developing countries including Uganda, Mexico, Argentina, Ghana and India, achieving remarkable results and exploring innovative paths for local bamboo industry development, and contributing to environmental protection, employment improvement, and income growth.	
Training content	1. Main training content (1) China's National Conditions: Introduction to China's humanities, geography, politics, economy, science and technology, education, customs, and the achievements and experiences since the reform and opening-up. (2) The "Two Mountains" Theory and Its Practice in China: Sharing the connotation, practices, and experiences of the "Two Mountains" theory in forestry. (3) Carbon Sinks and Carbon Markets: Current status and trends of domestic and international carbon markets, carbon trading and offsetting, challenges, and contributions to the "dual-carbon" strategic goals. (4) Forestry Policies Addressing Climate Change: Progress in international climate governance, forestry-related negotiations, and pathways for forestry to mitigate and adapt to climate change and achieve carbon neutrality. (5) Bamboo Taxonomy and Its Role in Poverty Alleviation in Northern Guizhou: Classification and utilization of bamboo in China, and case studies of using bamboo industry to drive economic development and poverty alleviation in northern Guizhou. (6) The "10,000 Yuan per Mu" Practice in Zhejiang Bamboo Forests: This case study highlights Zhejiang's innovative model of developing economic forests and understory economies under its natural conditions of "70% mountains, 10% water, and 20% farmland". By leveraging bamboo as a catalyst for integrating primary, secondary, and tertiary industries, the practice exemplifies how forestry can drive rural prosperity. It showcases a successful pathway to turning ecological resources into sustainable economic gains. (7) Development and Utilization of Forest Food: Types and benefits of China's forest "Grain Production", and the development and utilization of healthy, pollution-free forest foods. (8) Anji Bamboo Industry Development and Ecotourism: Case studies of Anji, China's "Bamboo Hometown," sharing technologies, policies, experiences, and lessons in bamboo	

industry and tourism development.

(9) Green Industry Development in Yunhe Terraced Fields: Introduction to Yunhe County's basic conditions and achievements in green forestry industry development.

(10) Forestry Development and Rural Revitalization in Nanping City: Case studies of Nanping City's reliance on technological support to develop characteristic forestry industries and help farmers escape poverty.

2. Study tour arrangements(The city visit schedule is subject to change based on actual conditions)

(1) It is proposed to arrange for participants to visit Yunhe County in Lishui City, Zhejiang Province—a designated "Ecological Demonstration County of Zhejiang" and the "Hometown of Chinese Wooden Toys." The itinerary includes visits to the Yunhe Terraced Fields Green Development Culture Exhibition Hall, Yunhe Terraced Fields, traditional Chinese village preservation and development sites, a She Ethnic Group Exhibition Hall internship, and an immersive experience of Yunhe's wooden toy culture and industry development.

Additionally, participants will explore local practices in bamboo and forestry industries that promote rural revitalization, such as the Changting Beach "Red Sand Beach," offering a firsthand look at China's model for beautiful rural construction and the transformation of "lucid waters and lush mountains into invaluable assets."

(2) It is proposed to arrange for participants to conduct a study tour in Nanping City, Fujian Province. Activities include visits to the Bamboo and Wood Industrial Design Research Institute, an outdoor heavy bamboo flooring factory, a bamboo shoot food processing plant, a comprehensive carbon sink forest construction base, and an understory economy development base. Participants will also experience the scenic bamboo sea landscapes and learn from the local expertise in leveraging forest resources (the "Four Treasures" of forests: Water Conservation, Economic Growth, Grain Production, and Carbon Resources) to protect the ecological environment while driving economic growth.

(3) Participants will enjoy the scenic beauty of Hangzhou's West Lake, traditional tea art performances, and appreciate China's profound traditional culture.

3. About the lecturers

(1) Ye Juntao: Professor and master's supervisor at Zhejiang University of Science and Technology, specializing in development economics and ecological economics.

(2) Wu Shuirong: Professor and PhD Supervisor, Director of the Forest Resources and Environmental Economics Research Department of the Research Institute of Forestry Policy and Information, Chinese Academy of Forestry, Deputy Director of the Forest Green Carbon Asset Management Center of Chinese Academy of Forestry, and one of the main initiators of the validation and certification qualification of forestry carbon sink projects of the Research Institute of Forestry Policy and Information, Chinese Academy of Forestry. Academic positions: Head of the Working Group on "Valuation of Ecosystem Service and Carbon Markets" of the Forestry Resource Economics Section of IUFRO Section IX, member of the special working group on "Resilient Plantation Forest for Social and Bio-economic Service" of IUFRO, and the first Vice Chairman of the Forest Ecological Economy Committee of the Chinese Forestry Economics Society. She was a senior visiting scholar at the University of Freiburg, Germany and the University of Eastern Finland. In the past 10 years, she has presided over and undertaken more than 60 scientific research projects, published more than 50 academic papers in core journals both home and abroad as the first author or corresponding author, and delivered 12 oral academic reports at international conferences in more than 10 countries; he has edited (participated in) 11 monographs and translation works. Two achievements were listed in the National Forestry Scientific and Technological Achievements Promotion Bank, which have supported more than 10 forests declaration and implementation of the central financial promotion projects.

(3) Ding Yulong: Professor and PhD Supervisor of Nanjing Forestry University, part-time PhD Supervisor of International Network for Bamboo and Rattan (INBAR). He has long been engaged in teaching botany and research on plant resource introduction, domestication and seedling industrialization as well as bamboo forest cultivation, rapid breeding of ornamental bamboos and their application in gardens. He has presided over one national "Tenth Five-Year" scientific and technological research sub-project, one "948" seed introduction project, and published more than 20 academic papers.

(4) Du Xuhua: PhD, associate researcher, and master's supervisor, focusing on multi-objective bamboo management and intelligent equipment.

	(5) Xie Jinzhong, PhD, Professor. He has been engaged in bamboo research for 35 years and is mainly engaged in bamboo cultivation, as well as research on the application basis of bamboo forest hydrology and bamboo-agriculture compound operation (under forest economy - bamboo shoots, bamboo fungus, etc.). He has presided over and participated in more than 50 international cooperation and national key research and development projects, and has achieved 15 scientific research achievements, including 1 Second Prize of National Scientific and Technological Advancement Award, and 1 Second Prize of Scientific and Technological Advancement awarded by the Ministry of Forestry. Besides, he has published more than 70 papers in academic journals both home and abroad, participated in or organized 16 international bamboo academic exchange activities and visited more than 20 countries. He has been employed as a foreign aid expert by international organizations such as CFC, INBAR and the Ministry of Science and Technology. (6) Zhang Hongliang: Senior Engineer and Deputy Director of Anji Forestry Bureau, with extensive administrative experience in the bamboo industry. (7) Yan Weidong: Senior Engineer and Chief Engineer of Yunhe County Ecological Forestry Development Center, with rich experience in ecological forestry development. 4. Others To facilitate communication with Chinese experts, participants are encouraged to prepare materials related to the seminar theme, such as: ①Current status and challenges of forestry development in their country; ②Existing cooperation foundations with China.

Seminar on Urban and Rural Development and Rural Revitalization for Developing Countries

Program name	Seminar on Urban and Rural Development and Rural Revitalization for Developing Countries		
Organized by	International Poverty Reduction Center in China		
Time	2025-08-21 -- 2025-09-03	Language used	English
Countries invited	Director General or Division level government officials and researchers in the fields of agriculture, public administration, planning and development, education, economy, finance, financial services, human resources, international cooperation and other relevant departments in the developing countries		
Planned number of participants	25		
Requirements for the Participants	Age	Under 45 for officials at or under director's level; under 50 for officials at director general's level.	
	Health condition	In good health with health certificates or medical examination forms issued by local public hospitals; without diseases prohibited from entry by China's laws and regulations; without severe chronic diseases such as serious high blood pressure, cardiovascular and cerebrovascular diseases and diabetes; without mental illnesses or infectious diseases that may pose serious threats to public health; not during the postoperative recovery period after a major operation or during the outbreak period of acute diseases; without severe physical disability; NON-PREGNANT.	
	Language competence	Capable of listening, speaking, reading and writing in English during the training	
	others	Participants who come to China for training are not allowed to bring spouses or relatives.	
Venue	Beijing	Weather conditions	21℃~34℃
Cities to be visited	Jiaxing City, Zhejiang Province	Weather conditions	25℃~32℃
Remarks	1. Please prepare a valid passport and visa in advance. 2. The seminar will organize participants to make national poverty reduction presentations and exchange views on poverty reduction. Participants are encouraged to bring personnel laptop. 3. If the flight cannot depart on time due to special circumstances, or the flight is delayed during transfer, please contact the project coordinator to inform her of the latest flight status, so as to arrange the pick-up. 4. In principle, individuals are not allowed to change international tickets. If necessary, please contact the business office to go through the procedures. If you change your ticket without permission, you will be responsible for the expenses and liabilities incurred. 5. Please confirm whether you need to check the baggage again during the transfer; Please wait patiently at the international arrival exit (or domestic arrival exit) after the landing of the flight to collect your baggage. The staff will hold the pick-up name board written with "IPRCC" or "SEMINAR". If you've wait longer than 15 minutes, contact the project coordinator. 6. If you need to register with the airline in case of lost checked baggage, please call the project coordinator to confirm the address of baggage delivery before filling in the registration form. 7. Please pay attention to the weather of the host area and bring corresponding clothes; Prepare light footwear for inspection; Formal dress or national costume is required for		

	important activities. 8. Please take a small amount of commonly used medicine (e.g. cold medicine/dietary probiotics, common drugs for your chronic diseases). 9. Strongly recommend participants download and register WeChat and Skype accounts before coming to China. 10. Please download China's offline google maps prior your departure to China.

	Address	No.1 of Taiyanggong North Street, Chaoyang District, Beijing, China
About the Organizer	The International Poverty Reduction Center in China (IPRCC) was established in May 2005 as one of outcomes of Shanghai Global Conference on Scaling Up Poverty Reduction in 2004. IPRCC was jointly initiated and established by the Chinese government, the UNDP, the World Bank and other international organizations. It is designed for research, training, exchange, collaboration and knowledge sharing in poverty reduction. IPRCC is committed to the internationalization of China's poverty reduction experience, as well as the localization of global experience, so as to forge an integrated platform for poverty reduction and development. Since 2005 to the end of 2024, IPRCC has successfully held 217 seminars, with 15382 participants from 140 countries. IPRCC has developed training textbooks such as "Ten Keys to Understanding China's Poverty Reduction", video textbooks and micro video cases teaching materials. In the central and western regions in China, 15 provinces have been identified as "China Poverty Alleviation Exchange Base". Participants can be arranged to visit the bases for field visits and feel the effects of poverty alleviation policies and practices. IPRCC is also equipped with an international training team that understands business, knows foreign languages and has high quality. At the same time, it has compiled and printed the international training manual for poverty reduction, which has strengthened the standardized management and promoted the high-quality development of project implementation. IPRCC has two training classrooms with an area of 120 square meters, and has the necessary venues and equipment for online training. Web site of IPRCC: http://www.iprcc.org	
Training content	The theme of this project is "Urban and Rural Development and Rural Revitalization", which aims to help government officials in developing countries to gain an in-depth understanding of the Chinese experience that urban and rural development and rural revitalization need to put planning first, industry foundation, ecology first, technology driven, and governance innovation as the core. That means (1) Systematic policy support: Build a responsibility system of "five-level secretaries focusing on rural revitalization", introduce top-level designs such as the "Comprehensive Rural Revitalization Plan (2024-2027)", and coordinate policy resources such as finance, land, and banking to favor rural areas. (2) Integrated development of the three industries: through the "Internet + agriculture" and "garden complex" and other models to promote the deep integration of agriculture with tourism, e-commerce and culture. (3) Ecological protection and green transformation: promote ecological compensation mechanism, implement projects such as returning farmland to forest and toilet revolution. (4) Digital technology empowerment: Build a pilot digital village, use big data and blockchain technology to optimize the supply chain of agricultural products, and broaden sales channels with the help of live e-commerce. (5) Talent and organization revitalization: the implementation of the "college student village officials" and "villager return" plan,	

strengthening the leading role of grass-roots party organizations, establishing autonomous mechanisms such as "villagers' councils", and improving the effectiveness of rural governance. Through systematic training, this seminar enables participants to fully grasp the core theories, policy tools and practical paths of coordinated urban-rural development and rural revitalization, and improve their ability to develop strategic plans, promote industrial upgrading and optimize rural governance. The activities of the seminar are divided into three parts: thematic lectures, discussion and exchange and field visit.

I. Thematic Lectures. It includes 2 public courses and 8 professional courses.

(I) Public Courses

1. Introduction to China's National conditions. This lecture mainly introduces the basic national conditions of China and the main results, strategic measures, model mechanisms and experience enlightenment of China's economic and social development.

2. Promote the building of a community with a shared future for mankind. This lecture mainly introduces China's strategic conception, promotion model, policy measures and effectiveness inspiration in promoting the building of a community with a shared future for mankind.

(II) Professional Courses

3. Strategy and practice of urban-rural integration in China. This lecture mainly introduces the strategic measures, policy design, model mechanism and experience enlightenment of China's urban-rural integration development.

4. China's rural revitalization strategy and policy. This lecture mainly introduces the strategic measures, policy design, model mechanism and experience enlightenment of China's rural development and rural revitalization.

5. China's rural industrial development policy and practice. This lecture mainly introduces the strategic framework, policy measures, main effects and experience enlightenment of China's rural industry revitalization.

6. China's rural education development policy and practice. This lecture mainly introduces the strategic framework, policy practice, main effect and experience enlightenment of rural education development in China.

7. China's rural health development policy and practice. This lecture mainly introduces the strategic framework, policy practice, main effect and experience enlightenment of China's rural health development.

8. China's rural science and technology development policy and practice. This lecture mainly introduces the strategic framework, policy measures, main effects and experience enlightenment of China's rural science and technology development.

9. China's rural ecological environment policy and practice. This lecture mainly introduces the strategic framework, policy practice, main results and experience enlightenment of promoting rural ecological construction and strengthening green development in China.

10. Effectiveness in formulating and implementing local and provincial rural revitalization policies. This lecture mainly introduces the formulation, policy measures, implementation model and experience inspiration of local provincial rural revitalization planning.

(III) Information about the speakers

1. He Wenping, Researcher, Institute of West Asian and African Studies, Chinese Academy of Social Sciences

2. Guan Kongwen, Associate Professor, Beihang University

3. Zhang Xinmin, Associate Researcher, Center for Urban and Small Town Reform and Development, National Development and Reform Commission

4. Gou Tianlai, Professor, Beijing University of Agriculture

5. Jie Ping, Deputy Director General, International Poverty Reduction Center in China

6. Wang Lifeng, Researcher, Research and Development Center, Ministry of Education

7. Xu Nan, Associate Researcher, Center for Health Development Research, National Health Commission

8. Guo Qiang, Associate Professor, North University of China

9. Ge Chazhong, Chief Scientist and Researcher, Institute of Environmental Planning, Ministry of Ecology and Environment

II. Discussions and exchanges. The participants from developing countries will be invited to give country speeches, introduce the formulation and implementation of their own strategic plans for urban and rural development and rural revitalization, share their experience in formulating and implementing policies for rural development and poverty reduction, and

	strengthen exchanges between China and developing countries in the field of rural development. Promote the developing countries to improve the strategic system and working mechanism for rural development and national modernization. III . Field Visit. To introduce the participants the policy formulation, implementation mechanism and remarkable results of implementing and improving urban-rural integrated development and promoting rural revitalization in Jiaxing City, Zhejiang Province, It covers project sites such as new-type urbanization demonstration zone, rural revitalization demonstration village, modern agricultural industrial park, urban-rural integration development pilot zone, ecological restoration and sustainable development demonstration zone, traditional village protection and cultural inheritance base, and grassroots governance innovation demonstration site. The itinerary for field visit and the courses arrangement may be adjusted according to the actual situation.
--	---

CODE OF CONDUCT

1. Adhere to the laws of the People's Republic of China and the relevant regulations outlined in the relevant seminar / training.
2. While the Chinese government upholds the freedom of religion, it is important to note that foreigners are prohibited from distributing religious propaganda material or engaging in activities that aim to recruit followers.
3. In case of an emergency, please promptly inform the staff for immediate assistance.
4. Please ensure the safety of your personal belongings and consider storing them in the hotel if needed.
5. If you have any specific dietary requirements, kindly inform the staff as soon as possible.
6. When visiting scenic spots and historical sites, please be attentive to signs indicating that photography is not allowed.
7. Please observe Chinese laws and Regulations during your stay. Especially the norms of “sexual harassment” can be different from your country’s. Please avoid inappropriate and undesirable situations, which can lead to the termination of your program and draw legal consequences. Acts, conversation, correspondence, emails, gestures that can be construed as harassment must be strictly avoided.
8. You are not allowed to work, because you receive living allowance from China and the purpose of your stay in China is to engage in study / research.
9. Universally courtesy and politeness costs nothing and only earn friends. It is always beneficial to be courteous and polite. Politeness is not a sign of weakness. It shows good breeding, education and upbringing.
10. Female colleagues must be respected. They are fellow officers. Some very basic things shall be considered while interacting with the female colleagues:
 - Generally, as a mark of respect, one should stand when a female enters a room.
 - Personal space should be respected during conversation and a comfortable distance should be maintained.
 - Personal remarks on their dress and appearance should be avoided.
 - Loose language or inappropriate terms should not be used.
 - Inappropriate jokes should not be cracked.

- Hand gestures universally deemed obscene should not be made.
- Staring should be strictly avoided.
- Situations that make female colleagues uncomfortable should be avoided.
- While talking to a female, hands should never be placed in trousers pockets.
- Personal questions should never be asked (age, height, weight, marital status etc).
- Ordinarily, men should open the door for women.
- Females should always precede a male while entering a room.
- Door of a car should be opened for a female colleague.

11. Psychological harassment is against Chinese norms, that shall strictly be avoided:

- a. Persistent, unjustified and unnecessary negative attacks on personal or professional performance;
- b. Manipulation of an employee's personal or professional reputation by rumor, gossip or ridicule;
- c. Offensive comments or behavior relating to the ethnic origin, physical characteristics or religion of an individual;
- d. Exclusion or continued isolation from professional activities;

12. Social media ethics ought to be adhered to with responsibility.

13. **Emergency Calls: 120** for Hospital **119** for Fire Department **110** for Police
